Stars of Cycling World In San Jose For Stage 4 Start On May 19

SAN JOSE (May 7, 2010) –The world-class roster of teams and cyclists* scheduled to participate in the **2010 Amgen Tour of California** has been announced by race presenter AEG. An internationally sanctioned, professional cycling road race, the **2010 Amgen Tour of California** will host 16 teams, comprised of 127 riders, from 23 countries for the fifth-annual race taking place May 16-23. The race will be in San Jose for its Stage 4 Start, 9:30-11 a.m., Wed., May 19, at Park Ave. and Almaden Blvd.

The **2010 Amgen Tour of California** will bring an exceptional concentration of cycling talent to compete across more than 800 miles of the state of California from Nevada City to Thousand Oaks, home of race sponsor Amgen. Attracting an unprecedented field of riders from around the world, cyclists hail from countries as far away as Belgium, Finland, Spain, France, Germany, New Zealand and Sweden.

“We are proud of the powerful and talented group of international and domestic cyclists set to participate in the **2010 Amgen Tour of California**,” said Andrew Messick, president of AEG Sports. “From Tour de France champions to Olympic medalists and world champions, this

**Team rosters are subject to change*

field is one of the best that has ever competed on American soil. The growing reputation of the **Amgen Tour of California** has resulted in a very accomplished field of cyclists, which should make for a great race.”

About the City of San Jose's Office of Economic Development

The San Jose Cycling Classic is being produced by the City of San Jose's Office of Economic Development (OED), part of the San Jose Office of the City Manager, is committed to a vital, competitive San Jose economy that increases prosperity for people and companies and enhances City revenues. The Office—which includes the San Jose Office of Cultural Affairs—guides the City's economic strategy, provides assistance for business success, helps connect employers with trained workers, and provides art and cultural resources to our community. For more information, please visit, www.sjeconomy.com.

About San Jose's Green Vision

On October 7, 2007, Mayor Chuck Reed introduced San Jose's Green Vision, which sets 10 ambitious goals for environmental protection and economic development. This 15-year plan envisions: creating 25,000 Clean Tech jobs; building or retrofitting 50 million square feet of green buildings; installing 100,000 solar roofs (1/10 of Governor Arnold Schwarzenegger's 1 million solar roofs for California initiative); reducing per capita electricity use by half; becoming a zero waste city; recycling and reusing 100 percent of the city's water; and moving to 100 percent renewable energy. A key part of the San Jose Green vision is the creation of a Green Mobility system—an integrated and sustainable way to get from place to place. Cycling plays a significant part in making this happen. The City, recognized by the League of American Bicyclists with National Bicycle Friendly Community Award, has more than 38,000 bike commuters traveling on more than 150-miles of on-street bikeways. The City offers ongoing bike commuting classes to ensure all have access to key safety training and help transition commuters from cars to bikes. San Jose is in the midst of expanding its bikeways, including a network of trail systems, allowing residents to travel more easily by bicycle, as well as encourage exploration and education about our natural habitat so residents better understand the benefits of a healthy environment and value its preservation. About the City of San Jose

From its founding in 1777 as California's first city, San Jose has been a leader, driven by its spirit of innovation. Today, San Jose stands as the largest city in Northern California and the Capital of Silicon Valley—the world's

leading center of innovation. The city, the 10th largest in the U.S., is committed to remaining a top-ranked place to do business, to work and to live. For more information, visit, www.sanjoseca.gov.
