

**EVs know the way to San Jose!**

**Please join Mayor Chuck Reed and Coulomb Technologies CEO Richard Lowenthal for the official unveiling of the first of hundreds of ChargePoint America networked charging stations for electric vehicles in San Jose, California. See EVs from smart USA, Ford and Chevrolet.**

[www.ChargePointAmerica.com](http://www.ChargePointAmerica.com)

Thursday, July 29, 2010

Time: 2:00 pm

Location: San Jose McEnery Convention Center Parking Center

150 W. San Carlos Street

San Jose Calif., 95113

Please use Almaden Blvd. entrance.

Charging stations are located in the garage along the north wall near section "S11."

Presenters include:

City of San Jose Mayor Chuck Reed

Coulomb Technologies CEO Richard Lowenthal

### **About ChargePoint America**

ChargePoint America is a program sponsored by Coulomb Technologies to provide electric vehicle charging infrastructure to nine selected regions in the United States. The is made possible by the American Recovery and Reinvestment Act through the Transportation Electrification Initiative administered by the Department of Energy and the objective is to accelerate the development and production of electric vehicles to substantially reduce petroleum consumption, reduce greenhouse gas production, and create jobs.

**U.S. DEPARTMENT OF ENERGY**

Follow ChargePoint America on FaceBook and [Twitter](#)!

[Coulomb Technologies](#) is the leader in electric vehicle charging station infrastructure with networked charging stations installed in municipalities and organizations worldwide. Coulomb provides a vehicle-charging infrastructure, with an open system driver network: the ChargePoint Network provides multiple web-based portals for Hosts, Fleet managers, Drivers, and Utilities, and ChargePoint Networked Charging Stations ranging in capability from 120 Volt to 240 Volt AC charging and up to 500 Volt DC charging. Follow Coulomb on Twitter at [twitter.com/coulombevi](https://twitter.com/coulombevi).

### **SAN JOSE'S GREEN VISION**

On October 7, 2007, Mayor Chuck Reed introduced [San Jose's Green Vision](#), which sets 10 ambitious goals for environmental protection and economic development. This 15-year plan envisions: creating 25,000 Clean Tech jobs; building or retrofitting 50 million square feet of green buildings; installing 100,000 solar roofs (1/10 of Governor Arnold Schwarzenegger's 1 million solar roofs for California initiative); reducing per capita electricity use by half; becoming a zero waste city; recycling and reusing 100 percent of the city's water; and moving to 100 percent renewable energy. A key part of the San Jose Green vision is the creation of a Green Mobility system—an integrated and sustainable way to get from place to place. Working to generate demand which further elevates zero emissions/alternative fuel transportation viability, San Jose is confronting the global climate crisis and end domestic dependence on fossil fuels.
