City Council Commends San José Business Clinimetrics Research Associates

San José initiative recognizes businesses that drive the economy

San José – San Jose Mayor Ron Gonzales and the City Council will recognize and commend Clinimetrics Research Associates, and Mr. Brad Zaro, President and CEO, for their contributions to the San José economy through jobs and revenues.

Clinimetrics Research Associates was founded in 1998 and headquartered in Edenvale, is one of the largest full-service contract research organizations in Northern California, providing a complete array of Clinical Research and related services.

With global operations in Canada and the UK, Clinimetric's mission is to provide the highest quality clinical research services to pharmaceutical, biotechnology and medical device companies throughout the world.

Clinimetrics employs more than 250 of the most highly skilled team of professionals in the industry and rewarding their employees with a share of the company's success, promotes the retention and attraction of the best and brightest, most hardworking and dedicated workers of San José and Silicon Valley.

[more]

The city's commendation to Clinimetrics Research Associates is a part of San José's Business Appreciation Initiative, which is a key component of the city's economic development strategy.. This business-retention effort recognizes San José successful companies that are fast growing, international, generate significant sales tax, employ more than 1,000 employees, or publicly traded and based in San José.
